SUBJECT INDEX

Note: Abstract Index follows Author Index

A

Acetazolamide
Effects of timolol maleate and acetazolamide on the rate of aqueous formation in normal human subjects, 232
Adnexa
Intralesional corticosteroid injection for infantile adnexal hemangioma, 496
Albinism
Ophthalmic manifestations of the Hermansky-Pudlak syndrome (oculocutaneous albinism and hemorrhagic diathesis), 71
Allesthesia
Palinoptic visual allesthesia (Corr.), 801
Anesthesia
Central retinal artery occlusion without retrobulbar hemorrhage after retrobulbar anesthesia, 573
Effect of retrobulbar anesthesia on ocular tension (Corr.), 805
Aneurysm
Macroaneurysms of the retinal arteries, 164
Angle-closure glaucoma
Argon laser iris photocoagulation to relieve acute angle-closure glaucoma, 348
Anterior chamber
Direct-view goniolens, 242
Anterior segment
Anterior segment ischemia syndrome following rectus muscle transposition, 34
Results of anterior segment surgery with vitrectomy instruments, 172
Variable expressivity of autosomal dominant anterior segment mesenchymal dysgenesis in six generations, 57
Antigen
Longitudinal study of serum antibody responses to retinal antigens in acute ocular toxoplasmosis, 224
Aphakia
Action spectrum for retinal injury from near-ultraviolet radiation in the aphakic monkey, 299
Histopathologic study of bilateral aphakia with a unilateral intraocular lens in a child, 289
Aplastic anemia
Chloramphenicol and aplastic anemia (Corr.), 664
Fatal aplastic anemia following topical administration of ophthalmic chloramphenicol, 356
Aqueous
Dynamics of aqueous humor in the syndrome of exfoliation with glaucoma, 629
Effects of timolol maleate and acetazolamide on the rate of aqueous formation in normal human subjects, 232
Tobramycin levels in aqueous humor after subconjunctival injection in humans, 107
Astigmatism
Bullous keratopathy after anterior-posterior radial keratotomy for myopia and myopic astigmatism, 600
Corneal astigmatism from conjunctival cysts, 118
Measuring astigmatism (Corr.), 254

B

Babesiosis
Ocular findings in human babesiosis (Nantucket fever), 307
Betamethasone
Acute rubella retinal pigment epitheliitis in an adult, 285
Bleb
Clear-cornea cataract extraction in eyes with functioning filtering blebs, 294
Blepharoptosis
Modifications of the Müller's muscle-conjunctival resection operation for blepharoptosis, 647
Blepharospasm
Parotid duct injury as a complication of differential seventh nerve ablation, 124
Blindness
Preventing fireworks blindness (Edit.), 654
Blowout fracture
Tissue bank bone for blowout fractures (Corr.), 661

C

Carcinoma
Chemotherapy for choroidal metastases from breast carcinoma (Corr.), 810
Chemotherapy for treatment of choroidal metastases from breast carcinoma, 102
Carotid artery
Anterior ischemic optic neuropathy with internal carotid artery occlusion, 42
Carotid-cavernous fistula
Diagnosis and prognosis of atypical carotid-cavernous fistula (red-eyed shunt syndrome), 423
Cataract
Clear-cornea cataract extraction in eyes with functioning filtering blebs, 294
Fatal aplastic anemia following topical administration of ophthalmic chloramphenicol, 356
Frequency of posterior subcapsular cataract in the hereditary retinal degenerations, 733
Fuchs' heterochromic cyclitis and ocular toxoplasmosis, 739
Long-term visual results in bilateral congenital cataracts, 615
Measuring astigmatism (Corr.), 254
Peripheral corneal ulcers, conjunctival ulcers, and scleritis after cataract surgery, 334
Possible relationship of ethylene oxide exposure to cataract formation, 727
Results of anterior segment surgery with vitrectomy instruments, 172
Spontaneous resolution of massive periretinal proliferation, 92
Tobramycin levels in aqueous humor after subconjunctival injection in humans, 107
Cavernous sinus
Diagnosis and prognosis of atypical carotid-cavernous fistula (red-eyed shunt syndrome), 423
Central retinal artery
Central retinal artery occlusion without retrobulbar hemorrhage after retrobulbar anesthesia, 573

Intimo-intimal intussusception of the central retinal artery (Corr.), 257
Children
Correlative microscopy and tissue culture of congenital hereditary endothelial dystrophy, 456
Hemangioendothelioma of frontal bone, 482
Histopathologic study of bilateral aphakia with a unilateral intraocular lens in a child, 289
Juvenile retinal detachment, 145
Ocular manifestations of Kawasaki's disease (mucocutaneous lymph node syndrome), 713
Chloramphenicol
Chloramphenicol and aplastic anemia (Corr.), 664
Fatal aplastic anemia following topical administration of ophthalmic chloramphenicol, 356
Choriocapillaris
Choroidal microvascular repair after argon laser photocoagulation, 787
Choroid
Bilateral choroidal osteomas associated with fatal systemic illness, 192
Chemotherapy for choroidal metastases from breast carcinoma (Corr.), 810
Chemotherapy for treatment of choroidal metastases from breast carcinoma, 102
Choroidal microvascular repair after argon laser photocoagulation, 787
Natural course of choroidal neovascular membranes within the foveal avascular zone in senile macular degeneration, 157
Scanning electron microscopic study of nylon degradation by ocular tissue extracts, 111
Choroideremia
Frequency of posterior subcapsular cataract in the hereditary retinal degenerations, 733

Ciliary body
Scanning electron microscopic study of nylon degradation by ocular tissue extracts, 111
Cimetidine
Effect of histamine-2 receptor blockade by cimetidine on intraocular pressure in humans, 351
Color vision
Annular macular dystrophy, 279; Correction, 806
New assessment of the normal ranges of the Farnsworth-Munsell 100-hue test scores, 635
Computed tomography
Clinical and computed tomographic findings in the Foster Kennedy syndrome, 317

Cone
Frequency of posterior subcapsular cataract in the hereditary retinal degenerations, 733
Congenital disorders
Abnormalities of the vestibulo-ocular response in congenital esotropia, 704
Long-term visual results in bilateral congenital cataracts, 615
Visual-evoked potential in the diagnosis of congenital ocular motor apraxia, 700
Conjunctiva
Complications at mucous membrane donor sites, 643
Corneal astigmatism from conjunctival cysts, 118
Modifications of the Müller's muscle-conjunctival resection operation for blepharoptosis, 647
Ocular disorders associated with a new severe acquired cellular immunodeficiency syndrome, 393
Ocular manifestations of Kawasaki's disease (mucocutaneous lymph node syndrome), 713
Peripheral corneal ulcers, conjunctival ulcers, and scleritis after cataract surgery, 334
Conjunctivitis
Bloody tears (Corr.), 524
Herpes keratitis after radial keratotomy (Corr.), 370
Contact lens
Epikeratophakia for the treatment of keratoconus, 342
Flurbiprofen in the treatment of corneal neovascularization induced by contact lenses, 607
Hypopyon iridocyclitis associated with extended-wear soft contact lenses, 519
Noninfectious ring-shaped keratitis associated with *Pseudomonas aeruginosa*, 338
Contrast sensitivity
Loss in pattern-elicited electroretinograms in optic nerve dysfunction, 418

Cornea
Bacterial endophthalmitis resulting from radial keratotomy, 323
Bullous keratopathy after anterior-posterior radial keratotomy for myopia and myopic astigmatism, 600
Clinical investigations on the corneal endothelium. XXXVIII Edward Jackson Memorial lecture, 1
Corneal astigmatism from conjunctival cysts, 118
Corneal edema and the intraocular use of epinephrine, 327
Corneal endothelial changes after argon-laser iridotomy and panretinal photocoagulation, 473
Corneal transplantation in an infant with corneal dermoid, 78
Epikeratophakia for the treatment of keratoconus, 342
Filamentary keratitis, 466
Flurbiprofen in the treatment of corneal neovascularization induced by contact lenses, 607
Fuchs' heterochromic cyclitis and ocular toxoplasmosis, 739
Herpes keratitis after radial keratotomy (Corr.), 370
Herpes keratitis after radial keratotomy (Corr.), 806
In vivo microscopic observations of human corneal epithelial abnormalities, 210
Noninfectious ring-shaped keratitis associated with *Pseudomonas aeruginosa*, 338
Peripheral corneal ulcers, conjunctival ulcers, and scleritis after cataract surgery, 334
Preliminary results and complications of radial keratotomy, 437
Presumed autoimmune corneal endotheliopathy, 718
Pseudomonas corneoscleral ulcers (Corr.), 256
Corrections
Annular macular dystrophy—Correction, 806
Broken nylon iris fixation suture, 818
Prevention of corneal burns during high-energy laser iridotomy, 260

Correlative microscopy and tissue culture of congenital hereditary endothelial dystrophy, 456

Epikeratophakia
Epikeratophakia for the treatment of keratoconus, 342

Epinephrine
Corneal edema and the intraocular use of epinephrine, 327

Epiphora
Epiphora after irradiation of medial eyelid tumors (Corr.), 804

Esotropia
Abnormalities of the vestibulo-ocular response in congenital esotropia, 704

Excyclotropia
Double Maddox rod test in superior oblique muscle palsy (Corr.), 807
Excyclotropia of the nonparetic eye in unilateral superior oblique muscle paralysis, 30

Exfoliation syndrome
Dynamics of aqueous humor in the syndrome of exfoliation with glaucoma, 629

Extraocular muscle
Excyclotropia of the nonparetic eye in unilateral superior oblique muscle paralysis, 30

Eyedrops
Serratia keratitis transmitted by contaminated eyedroppers, 723

Eyelid
Adjustable self-supporting eyelid speculum, 119
Convergence-evoked eyelid nystagmus, 48
Epiphora after irradiation of medial eyelid tumors (Corr.), 804

ABSTRACT INDEX

A

Albinism
Albinism. Recent advances, 540
Laboratory screening for metabolic eye disease, 538
Lentigo maligna in a woman with oculocutaneous albinism, 383
Alexia
Alexia for arithmetical signs. A cause of disturbed calculation, 139
Right thalamic injury, impaired visuospatial perception, and alexia, 816
Amaurosis fugax
Recurrent retinal ischemia beyond cervical carotid occlusions, 265
Temporal arteritis associated with normal sedimentation rate, 537
Ambylopia
Treatment for ambylopia with rotating gratings and subsequent occlusion. A controlled study, 263
Anesthesia
Comparison of eye protection with methylcellulose and paraffin ointments during general anaesthesia, 536
Angioma
Acquired ocular-motor apraxia and right-sided cortical angioma, 139
Angle-closure glaucoma
Fellow eye, 262
Antigen
Genetic susceptibility to the development of retinopathy in insulin-dependent diabetics, 814
Aphakia
Regeneration of damaged ciliary epithelium in aphakic and pseudophakic eyes, 137
Apraxia
Acquired ocular-motor apraxia and right-sided cortical angioma, 139
Arthritis
Aspirin effect on cataract formation in patients with rheumatoid arthritis alone or combined to diabetes, 264
Corneal chrysiasis and clinical improvement with chrysotherapy in rheumatoid arthritis, 813
Localization of IgM in plasma cells in the iris of a patient with iridocyclitis and juvenile rheumatoid arthritis, 261

B

Binocularity
Development of visual centers in the primate brain depends on binocular competition before birth, 266
Blindness
Computerized tomographic scan findings in facial fractures associated with blindness, 266
Coping with sudden blindness, 264
Evidence for orbital deformation that may contribute to monocular blindness following minor frontal head trauma, 676
Excess mortality among blind persons in the West African Savannah zone, 674
Intraocular pressure after transurethral prostatic surgery, 383
Monocular blindness in nasopharyngeal cancer, 383
Residual visual capacities in a case of cortical blindness, 140
Spatial knowledge and geometric representation in a child blind from birth, 141
Total reversible blindness following attempted stellate ganglion block, 535
Blowout fracture
Computed tomography of blow-out fracture of the medial orbital wall, 672
Brain
Asymmetrical volumes of the right and left frontal and occipital regions of the human brain, 672
Cerebral asymmetry in developmental dyslexia, 673
Isolated failure of upward gaze as a sign of chronic subdural haematoma, 818
Meningitis and brain abscess due to *Clostridium perfringens* and *Clostridium paraputrificum* following orbital trauma, 814
Right thalamic injury, impaired visuospatial perception, and alexia, 816

C

Carcinoma
Immunotherapy of bovine ocular squamous cell carcinomas with phenol-saline extracts of allogenic carcinomas, 139
Carotid artery
Recurrent retinal ischemia beyond cervical carotid occlusions, 265
Cataract
Aspirin effect on cataract formation in patients with rheumatoid arthritis alone or combined to diabetes, 264
Cataract—the ultraviolet risk factor, 676
Corticosteroid-induced cataracts in idiopathic nephrotic syndrome, 813
Central retinal artery
Temporal arteritis associated with normal sedimentation rate, 537
Chiasm
Clinical utility of half-field pattern reversal visual evoked potential testing, 815
Children
Cerebral asymmetry in developmental dyslexia, 673
Corticosteroid-induced cataracts in idiopathic nephrotic syndrome, 813
CT diagnosis of orbital inflammation in children, 538
Eye movements of preschool children, 677
Localization of IgM in plasma cells in the iris of a patient with iridocyclitis and juvenile rheumatoid arthritis, 261
Spatial knowledge and geometric representation in a child blind from birth, 141
Choroid
Australian choroidal melanoma survey, 674
Follow-up study on serpiginous choroiditis, 381
Gyrate atrophy of the choroid and retina, 264
***Clostridium* sp.**
Meningitis and brain abscess due to *Clostridium perfringens* and *Clostridium paraputrificum* following orbital trauma, 814
Color vision
Psychophysical evidence for more than two kinds of cone in dichromatic color blindness, 817
Visual flicker discrimination in diabetes, 385
Computed tomography
Cerebral asymmetry in developmental dyslexia, 673
Computed tomography and ultrasound in the evaluation of orbital infection and pseudotumor, 817
Computed tomography of blow-out fracture of the medial orbital wall, 672
Computerized tomographic scan findings in facial fractures associated with blindness, 266
CT diagnosis of orbital inflammation in children, 538
Detection of orbital foreign bodies with computed tomography. Current limits, 382
Ophthalmoplegia-plus. Its occurrence with periventricular diffuse low density on computed tomography, 138
Cone
Psychophysical evidence for more than two kinds of cone in dichromatic color blindness, 817
Congenital disorders
Fetal alcohol syndrome, 537
Conjunctivitis
Isolation of enterovirus 70 from patients with acute hemorrhagic conjunctivitis in Key West, Florida, 539
Contrast sensitivity
Abnormal adaptation of visual contrast sensitivity in multiple sclerosis patients, 262
Cornea
Comparison of eye protection with methylcellulose and paraffin ointments during general anaesthesia, 536
Corneal chrysiasis and clinical improvement with chrysotherapy in rheumatoid arthritis, 813
Effect of topical 10% ascorbate solution on established corneal ulcers after severe alkali burns, 815
Fabry's disease and cornea verticillata, 381
Lipid-protein constituents of human corneal arcus, 384
Potential role of cyclosporin A in corneal grafting, 385
Cortical blindness
Residual visual capacities in a case of cortical blindness, 140
Corticosteroid
Corticosteroid-induced cataracts in idiopathic nephrotic syndrome, 813
Systemic corticosteroid treatment in Vogt-Koyanagi-Harada disease, 382
Crohn's disease
Orbital pseudotumor and Crohn disease, 140

Cycloplegia
Cycloplegia from transdermal scopolamine, 539
Cyclosporin A
Potential role of cyclosporin A in corneal grafting, 385
Cyclotropia
Visual acuity in cats following surgically induced cyclotropia, 535
Cystoid macular edema
Cystoid macular edema in vitreo-retinal traction, 386

D

Diabetes
Aspirin effect on cataract formation in patients with rheumatoid arthritis alone or combined to diabetes, 264
Cerebral edema and ophthalmoplegia reversed by mannitol in a new case of insulin-dependent diabetes mellitus, 817
Coronary artery spasm induced by phenylephrine eyedrops, 261
Platelet aggregation and reversible platelet aggregates in type I-diabetes staged by retinal fluorescein angiography, 384
Visual flicker discrimination in diabetes, 385
Diabetic retinopathy
Cardiac autonomic dysfunction in patients with diabetic retinopathy, 675
Diabetic retinopathy in identical twins, 675
Genetic susceptibility to the development of retinopathy in insulin-dependent diabetics, 814
Platelet abnormalities as related to diabetic retinopathy (with special reference to platelet shape change), 536
Diazepam
Effect of intravenous diazepam on rise of intraocular pressure following succinylcholine, 536
Diplopia
Occipitoatlantal instability and vertebrobasilar ischemia, 816
Down's syndrome
Abnormal neuronal development in the visual cortex of the human fetus and infant with Down's syndrome. A quantitative and qualitative Golgi study, 674
Dyslexia
Cerebral asymmetry in developmental dyslexia, 673

E

Edema
Cystoid macular edema in vitreo-retinal traction, 386
Fluorescein retinal angiography in the early diagnosis of optic disk edema, 263
Electro-oculography
One-and-a-half syndrome. Electro-oculographic analyses of five cases with deductions about the physiological mechanisms of lateral gaze, 813
Epithelium
Regeneration of damaged ciliary epithelium in aphakic and pseudophakic eyes, 137
Exophthalmos
Radical orbital decompression for severe dysthyroid exophthalmos, 815
Eyedrops
Coronary artery spasm induced by phenylephrine eyedrops, 261
Eyelid
Acquired ocular-motor apraxia and right-sided cortical angioma, 139
Feeding characteristics of demodectic mites of the eyelid, 674
Increased frequency of Apo E-ND phenotype and hyperapobetalipoproteinemia in normolipidemic subjects with xanthelasmas of the eyelids, 672
Orbital infarction in sickle cell disease, 141
Tarsorrhaphy from accidental instillation of cyanoacrylate adhesive in the eye, 675

F

Fabry's disease
Fabry's disease and cornea verticillata, 381
Fixation
Cerebellar control of fixation eye movements, 677
Fluorescein angiography
Fluorescein retinal angiography in the early diagnosis of optic disk edema, 263
Platelet aggregation and reversible platelet aggregates in type I-diabetes staged by retinal fluorescein angiography, 384
Fluorophotometry
Vitreous fluorophotometry, 536

G

Genetics
Albinism. Recent advances, 540
Diabetic retinopathy in identical twins, 675
Fabry's disease and cornea verticillata, 381
Familial retinoblastoma and chromosome 13 deletion transmitted via an insertional translocation, 142
Genetic susceptibility to the development of retinopathy in insulin-dependent diabetics, 814
Ultrastructure of the eye in fetal type II glycogenosis (Pompe's disease), 675
Giant cell arteritis
Epidemiology of giant cell arteritis including temporal arteritis and polymyalgia rheumatica, 261
Glaucoma
Biometric study of the disc cup in open-angle glaucoma, 672
Fellow eye, 262
Incidence of optic disc haemorrhages in chronic simple glaucoma and ocular hypertension, 262
Nadolol eye drops in glaucoma and ocular hypertension. A controlled clinical study of dose response and duration of action, 382
Glioma
Optic glioma masquerading as spasmus nutans, 815
Gyrate atrophy
Gyrate atrophy of the choroid and retina, 264

H

Hematoma
Isolated failure of upward gaze as a sign of chronic subdural haematoma, 818
Hemianopia
Saccadic eye movement strategies in patients with homonymous hemianopia, 137
HLA antigen
Genetic susceptibility to the development of retinopathy in insulin-dependent diabetics, 814
Hydroxychloroquine
Assessment of the retinal toxicity of hydroxychloroquine, 540
Hypertension
Incidence of optic disc haemorrhages in chronic simple glaucoma and ocular hypertension, 262
Intracranial pressure following optic nerve decompression for benign intracranial hypertension, 264
Nadolol eye drops in glaucoma and ocular hypertension. A controlled clinical study of dose response and duration of action, 382
Optic disc haemorrhages precede retinal nerve fibre layer defects in ocular hypertension, 381
Hypoplasia
Occipitoatlantal instability and vertebrobasilar ischemia, 816

I

Infants
Abnormal neuronal development in the visual cortex of the human fetus and infant with Down's syndrome. A quantitative and qualitative Golgi study, 674
Combined cryosurgery and scleral buckling in acute proliferative retrolental fibroplasia, 537
Fetal alcohol syndrome, 537
Ocular gonococcal infection with minimal or no inflammatory response, 140
Optic glioma masquerading as spasmus nutans, 815
Retinopathy of prematurity. An estimate of vision loss in the United States—1979, 141
Retrolental fibroplasia. A study of the incidence and aetiological factors, 816
Retrolental fibroplasia. Efficacy of vitamin E in a double-blind clinical study of preterm infants, 265
Intraocular foreign body
Detection of orbital foreign bodies with computed tomography. Current limits, 382
Intraocular lens
Protective role of Healon during lens implantation, 540
Regeneration of damaged ciliary epithelium in aphakic and pseudophakic eyes, 137
Intraocular pressure
Correlation between regulation of IOP, anatomical localization of trephination and trephine diameter in goniotrepanation procedures. A prospective study, 538

Effect of intravenous diazepam on rise of intraocular pressure following succinylcholine, 536
Intraocular pressure after transurethral prostatic surgery, 383
Iridocyclitis
Localization of IgM in plasma cells in the iris of a patient with iridocyclitis and juvenile rheumatoid arthritis, 261
Iris
Iris pigmentation (melanin) in idiopathic dystonic syndromes including torticollis, 138
Localization of IgM in plasma cells in the iris of a patient with iridocyclitis and juvenile rheumatoid arthritis, 261
Ischemia
Recurrent retinal ischemia beyond cervical carotid occlusions, 265

K

Keratopathy
Climatic droplet keratopathy and pterygium, 139

L

Laser
Retinal pigment epithelial detachments in the elderly. A controlled trial of argon laser photocoagulation, 814

M

Macula
Cystoid macular edema in vitreo-retinal traction, 386
Mannitol
Cerebral edema and ophthalmoplegia reversed by mannitol in a new case of insulin-dependent diabetes mellitus, 817
Marfan's syndrome
Marfan syndrome. A deficiency in chemically stable collagen cross-links, 265
Melanoma
Australian choroidal melanoma survey, 674
Lentigo maligna in a woman with oculocutaneous albinism, 383
Melanomas of eye. Stability of rates, 382
Methotrexate
Ocular irritation from high-dose methotrexate therapy, 384
Multiple sclerosis
Abnormal adaptation of visual contrast sensitivity in multiple sclerosis patients, 262
Multiple sclerosis. Luminance threshold and measurements of temporal characteristics of vision, 673

N

Nadolol
Nadolol eye drops in glaucoma and ocular hypertension. A controlled clinical study of dose response and duration of action, 382
***Neisseria* sp.**
Ocular gonococcal infection with minimal or no inflammatory response, 140
Nystagmus
Baclofen as a treatment for nystagmus, 813
Downbeat nystagmus with magnesium depletion, 383

O

Ocular injury
Substance P antagonist, [D-Pro^2, D-Trp^{7,9}]SP, inhibits inflammatory responses in the rabbit eye, 539
Ocular toxicity
Eye toxicity of cancer chemotherapy, 384
Oculomotor nerve
Aberrant regeneration of the inferior division of the oculomotor nerve, 138
Acquired ocular-motor apraxia and right-sided cortical angioma, 139
Open-angle glaucoma
Biometric study of the disc cup in open-angle glaucoma, 672
Ophthalmoplegia
Cerebral edema and ophthalmoplegia reversed by mannitol in a new case of insulin-dependent diabetes mellitus, 817
Ophthalmoplegia-plus. Its occurrence with periventricular diffuse low density on computed tomography, 138
Optic disk
Biometric study of the disc cup in open-angle glaucoma, 672
Fluorescein retinal angiography in the early diagnosis of optic disk edema, 263
Incidence of optic disc haemorrhages in chronic simple glaucoma and ocular hypertension, 262
Optic disc haemorrhages precede retinal nerve fibre layer defects in ocular hypertension, 381
Optic nerve
Intracranial pressure following optic nerve decompression for benign intracranial hypertension, 264
Optic pathway
Confrontation visual field techniques in the detection of anterior visual pathway lesions, 137
Orbit
Computed tomography and ultrasound in the evaluation of orbital infection and pseudotumor, 817
Computed tomography of blow-out fracture of the medial orbital wall, 672
CT diagnosis of orbital inflammation in children, 538
Detection of orbital foreign bodies with computed tomography. Current limits, 382
Evidence for orbital deformation that may contribute to monocular blindness following minor frontal head trauma, 676
Meningitis and brain abscess due to *Clostridium perfringens* and *Clostridium paraputrificum* following orbital trauma, 814
Orbital infarction in sickle cell disease, 141
Orbital pseudotumor and Crohn disease, 140
Paraganglioma of the orbit. An exercise in diagnosis, 142
Radical orbital decompression for severe dysthyroid exophthalmos, 815
Tuberculosis presenting as an orbital mass, 140

P

Papilledema
Abnormal electroretinograms and visual evoked potentials in chronic papilledema using time-difference analysis, 263
Glaucomatouslike visual field defects in chronic papilledema, 137
Parinaud's sign
Isolated failure of upward gaze as a sign of chronic subdural haematoma, 818
Phenylephrine
Coronary artery spasm induced by phenylephrine eyedrops, 261
Photocoagulation
Retinal pigment epithelial detachments in the elderly. A controlled trial of argon laser photocoagulation, 814
Photoreceptor cell
Effects of heavy ions on rabbit tissues. Loss of electroretinogram and DNA repair in retinal photoreceptor cells, 263
Platelet
Platelet abnormalities as related to diabetic retinopathy (with special reference to platelet shape change), 536
Platelet aggregation and reversible platelet aggregates in type I-diabetes staged by retinal fluorescein angiography, 384
Pneumoplethysmography
Oculopneumoplethysmography, Doppler examination, and supraorbital photoplethysmography. A comparison of hemodynamic techniques in assessing cerebrovascular occlusive disease, 673
Pompe's disease
Ultrastructure of the eye in fetal type II glycogenosis (Pompe's disease), 675
Proptosis
Orbital infarction in sickle cell disease, 141
Pterygium
Climatic droplet keratopathy and pterygium, 139

Q

Quinidine
Visual disturbances associated with quinidine and quinine, 385
Quinine
Visual disturbances associated with quinidine and quinine, 385

R

Radiation therapy
External beam radiation for retinoblastoma, 535
Refsum's disease
Metabolism of phytanic acid in Refsum's disease, 676

Retina
Assessment of the retinal toxicity of hydroxychloroquine, 540
Effects of heavy ions on rabbit tissues. Loss of electroretinogram and DNA repair in retinal photoreceptor cells, 263
Fluorescein retinal angiography in the early diagnosis of optic disk edema, 263
Gyrate atrophy of the choroid and retina, 264
Increased axonal proteolysis in myelin-deficient mutant mice, 817
Linear information processing in the retina. A study of horizontal cell responses, 539
On the problem of retinal directional sensitivity, 141
Optic disc haemorrhages precede retinal nerve fibre layer defects in ocular hypertension, 381
Recurrent retinal ischemia beyond cervical carotid occlusions, 265
Retinal detachment
Retinal pigment epithelial detachments in the elderly. A controlled trial of argon laser photocoagulation, 814
Retinal pigment epithelium
Retinal pigment epithelial detachments in the elderly. A controlled trial of argon laser photocoagulation, 814
Retinitis pigmentosa
Metabolism of phytanic acid in Refsum's disease, 676
Retinoblastoma
External beam radiation for retinoblastoma, 535
Familial retinoblastoma and chromosome 13 deletion transmitted via an insertional translocation, 142
Retinopathy
Cardiac autonomic dysfunction in patients with diabetic retinopathy, 675
Diabetic retinopathy in identical twins, 675
Genetic susceptibility to the development of retinopathy in insulin-dependent diabetics, 814
Laboratory screening for metabolic eye disease, 538
Platelet abnormalities as related to diabetic retinopathy (with special reference to platelet shape change), 536
Retinopathy of prematurity. An estimate of vision loss in the United States—1979, 141
Retrolental fibroplasia
Combined cryosurgery and scleral buckling in acute proliferative retrolental fibroplasia, 537
Retrolental fibroplasia. A study of the incidence and aetiological factors, 816
Retrolental fibroplasia. Efficacy of vitamin E in a double-blind clinical study of preterm infants, 265

S

Saccades
Cerebellar control of fixation eye movements, 677
Eye movements of preschool children, 677
Saccadic eye movement strategies in patients with homonymous hemianopia, 137
Sarcoidosis
Visual evoked potentials in sarcoidosis, 385
Scleral buckle
Combined cryosurgery and scleral buckling in acute proliferative retrolental fibroplasia, 537
Scopolamine
Cycloplegia from transdermal scopolamine, 539
Serpiginous choroiditis
Follow-up study on serpiginous choroiditis, 381
Sickle cell trait
Orbital infarction in sickle cell disease, 141
Sodium hyaluronate
Protective role of Healon during lens implantation, 540
Succinylcholine
Effect of intravenous diazepam on rise of intraocular pressure following succinylcholine, 536

T

Tarsorrhaphy
Tarsorrhaphy from accidental instillation of cyanoacrylate adhesive in the eye, 675

U

Ulcer
Effect of topical 10% ascorbate solution on established corneal ulcers after severe alkali burns, 815

V

Visual acuity
Visual acuity in cats following surgically induced cyclotropia, 535
Visual cortex
Abnormal neuronal development in the visual cortex of the human fetus and infant with Down's syndrome. A quantitative and qualitative Golgi study, 674
Visual-evoked potential
Abnormal electroretinograms and visual evoked potentials in chronic papilledema using time-difference analysis, 263
Clinical utility of half-field pattern reversal visual evoked potential testing, 815
Visual evoked potentials in sarcoidosis, 385
Visual field
Clinical utility of half-field pattern reversal visual evoked potential testing, 815
Confrontation visual field techniques in the detection of anterior visual pathway lesions, 137
Glaucomatouslike visual field defects in chronic papilledema, 137
Optic disc haemorrhages precede retinal nerve fibre layer defects in ocular hypertension, 381
Visual loss
Retinopathy of prematurity. An estimate of vision loss in the United States—1979, 141
Vitamin
Retrolental fibroplasia. Efficacy of vitamin E in a double-blind clinical study of preterm infants, 265
Vitreous
Cystoid macular edema in vitreo-retinal traction, 386
Vitreous fluorophotometry, 536
Vogt-Koyanagi-Harada disease
Systemic corticosteroid treatment in Vogt-Koyanagi-Harada disease, 382
